

Dear Peter

I would like to place on record my thanks for the way you and your crew looked after Elusive on her recent deliveries to and from Hamilton Island.

The deliveries were carried out without fuss or hassle, and the boat left in a clean and tidy condition at either end - meaning we had little to do to get her ready for racing when we arrived.

The website tracking system in particular was great, in that we could always track your progress and so felt that the boat was in safe hands throughout.

You also delivered as per you estimate and kept control of the out of pocket costs which was also greatly appreciated!

While Elusive will probably not be heading north next year, she is likely to do so in 2012 – we will be sure to book you again!

All the best.
